**RURAL EDUCATION**

What do small towns and rural areas export? Corn? Milk? Cheese?

I think our greatest exports are **well-educated children**. They enrich our towns and our country. New young families flock to a town with a good school system. They bring youth, energy and skills with them. They help the local economy and add to the tax base. Whether the graduates stay local or move away, a good education helps them succeed in life.

This year, my local school district passed a referendum to raise property taxes so our school could cover budget gaps and plan for the future. Across Wisconsin this spring, voters approved 46 of the 75 referendums on the ballot. These will raise over \$564 million through increased property taxes. This also means 29 referendums failed. Often, they fail by less than 80 votes. (One referendum won by just 1 vote.) \$436 million in funds were denied to school systems that need the money.

Many rural school districts are facing lower student enrollment and rising costs. When referendums fail, schools have to fire staff, cut programs, delay repairs on buildings and even consider dissolution or consolidation with other districts. Meanwhile, the use of private school vouchers has taken another \$700 million from our public schools. Vouchers often allow the wealthiest to get their education paid by us, but away from the rest of us.

In our country, states make most decisions about how schools run. They decide how they will run, what students learn and who can teach. On average, 47% of public-school funding comes from the state, 45% is local and only 8% is from the federal government. Raising the percentage of funds that come from the state would spread out the cost of education among all the citizens, lower property taxes and perhaps rid us of this painful referendum process.

Rural communities have always valued good education. As early as the 1890s, The Farmers' Alliance, part of the Populist movement of the time, built a grass-roots effort to bring hundreds of thousands of rural men and women and their families into classrooms, lectures, and seminars. They believed education was the best way to close the gap between poverty in the rural areas and the prosperous life in the towns.

Throughout history, however, some leaders considered education and educated people, to be dangerous. Educated people ask questions and speak up for themselves. They don't accept simple answers. Sadly, it is not by accident that America's right wing has defunded our public schools and reduced the value of our teachers.

Public education must be protected. It is part of what has made America great.

Pet of the Week

“TINY”

Tiny is the

CCHS Pet of the Week!

Tiny came to CCHS as an owner surrender, after she had been found as a stray last year, but was just too small for life as a barn cat. Tiny is indeed a little kitty! She is about 11 months old (estimated DOB 5/5/25) and weighs just 4.4#. She is a rare female Orange Tabby, and is a very pretty girl with white trim and beautiful eyes. This itty-bitty kitty is a bashful girl. Tiny is a sweet gal who is just a little unsure of things, but does love affection. She does not always know how to ask for it, but with a gentle touch and a little patience, she’s very easy to win over. Tiny currently resides in our Kitty City with a number of other feline friends. She will do best in a calm home where she isn’t overwhelmed with lots going on. She definitely needs a new family with lots of love to share and the patience to give her a chance. Apply for Tiny today! You can submit your adoption application on our website: [www.cchs-petshelter.org/applying-to-adopt](http://www.cchs-petshelter.org/applying-to-adopt).

Do you have a love for cats and dogs and have been thinking it would be nice to help out at CCHS? Well, now’s your chance! Whether it’s a few hours a week, one day a month, or something in between, this is your opportunity to try it out. We are very much in need of volunteers! You can learn more and sign up on our website: <https://www.cchs-petshelter.org/volunteer> or email April at [cchsoutreach1@gmail.com](mailto:cchsoutreach1@gmail.com). Come join our CCHS volunteer family!

AND GOD SAYS...

In the May 2024, “Morning Glory” magazine, a publication of Hauge Lutheran Innermission Federation, I came across a very interesting and informative article about the importance of reading the Bible on a regular basis. It said, and I quote:

The Center for Bible Engagement conducted an impressive study exploring the impact of Bible engagement on 400,000 Christians in North America.

When you spend only 1 - 3 times a week reading the Bible, it has next to no impact on you.

As soon as people in the study passed the number the threshold and went into their fourth engagement with the bible each week, they saw a significantly positive difference in how they felt and how well they dealt with hard times.

- Feeling lonely dropped 30%
- Anger issues dropped 32%
- Alcoholism dropped 57%
- Relational issues (especially in marriage) dropped 40%
- Pornography and other sexual sins dropped 62%
- Feeling spiritually stagnant dropped 60%

This explains why so many people are hurting.

Hebrews 4:12 says, “For the word of God is living and active. Sharper than any double-edged sword, it penetrates even to dividing soul and spirit, joints and marrow; it judges the thoughts and attitudes of the heart.” (NIV)

So if you are depressed or having some of the above-mentioned issues, try reading the Bible more. In fact, read it daily. Not in a cursory way, but regularly and systematically. Allow God’s word to begin to touch your heart and mind. “And as you do, “may the Lord of peace himself give you peace at all times and in every way.” (2 Thessalonians 3:16).

Note: I thought this article significant enough to reprint from 5/2024.

JUNE IS NATIONAL  
**DAIRY MONTH**

One 8-ounce Glass of MILK  
contains as much **CALCIUM**  
as each of these options:

4.5 servings of broccoli

16 servings of spinach

5.8 servings of whole-wheat bread

Source: American Dairy Association Midwest

**National Dairy Month is BIG for Wisconsin Dairy.**

**Dairy Farmers of America is building its in-state campaign around the following core messages.**

**Dairy is Good for You and for Wisconsin**

- Dairy foods provide a unique nutrient profile that helps people of all ages achieve greater health and wellness. **(Good for me)**
  - ~ Real dairy has immunity boosting nutrients like Vitamin A, Vitamin D, zinc and protein.
  - ~ Get after it with dairy. As a natural source of protein, dairy provides the pick me up you need to go all out.
- U.S. dairy farmers are committed to reducing their carbon footprint even further as part of the dairy industry's initiative to become carbon neutral or better by 2050. **(Good for planet)**
  - ~ Producing a gallon of milk has 19% less greenhouse gas emissions than it did in 2007. That's equivalent to the amount of carbon dioxide removed from the atmosphere by half a million acres of U.S. Forest every year.
- Wisconsin dairy farmers have dedicated their lives to feeding communities across the state, country and globe. **(Good for community)**
  - ~ 95% of Wisconsin dairy farms are family owned.

## Energy Costs More in Summer

Providing electricity costs more in the summer, so bills are often higher this time of year. Why? Hot weather increases demand for electricity across the region, which raises the cost of power. At the same time, many homes and businesses run air conditioning and other cooling equipment more often, meaning you may be using more energy right when prices are higher.

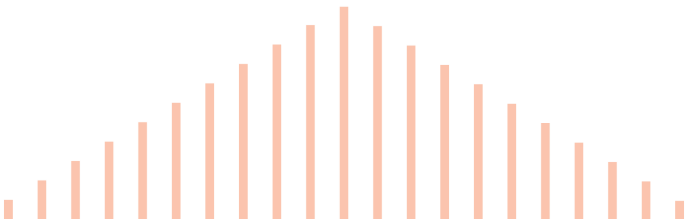

PLAN AHEAD FOR HIGHER SUMMER ENERGY USE

Weston, the son of Nick and Andrea Kyser, was recently diagnosed at six months of age with Krabbe Disease, a rare and terminal genetic disorder that affects the brain. This life-changing diagnosis brings not only an emotional toll for all who know and love Weston, but also a significant financial burden for his family.

Weston’s care will require specialized equipment, ongoing medications, and travel to see medical specialists. In addition, his parents will face lost income as they take time away from work to care for him.
