# AND GOD SAYS . . .

What we believe to be true is not necessarily true. For example, many people believe it is unsafe in Israel because of the terrorists attacks. But the truth is, it is safer in Israel than it is in New York City. At least that is the report given to us by a missionary that has lived in Israel since 1985. According to the statistics, there are more people killed in New York City per capita than in Israel.

"Why do we find this so hard to believe?" I can only speculate, but I wonder if it doesn't have something to do with the misinformation we receive through the regular news media. Could it be that the reporting on the events in Israel are a bit out of balance?

It is important to note that the imbalanced or false information we get will ultimately lead to wrong conclusions with possibly devastating results. In Israel it means that tourists stop traveling to that country which has a devastating effect on the economy because Israel is dependant on tourism. Furthermore, the imbalance is causing a huge surge of anti-Semitic bias among young people in America with grave consequences.

But there are other areas of imbalance in our thinking that have even greater consequences. I am speaking of our relationship to God.

Many have come to think that because God is a God of love that he is soft on justice. They believe that if they have done some good, they will go to heaven. Others believe that everyone goes to heaven when they die. But the truth is, God is just and established the death penalty as the price to be paid for sin. If you doubt that, just look around you, death is everywhere.

It is obvious that our death only pays the penalty for our sin. The only way we can escape the power-hold of death, is to put our faith in the death of Jesus, God's son, as payment for our sin and accepting His gift of life, through His resurrection.

Now the fact of the matter is, this is the truth, whether you believe it or not. "How do I know?" you ask. Because the One who has lived in heaven all His existence and has established the standards has told me so through His written Word. The fact that the world's media says different, doesn't change the fact. Jesus is the Savior and the only way to peace with God.

**Dairy Farmers of America is building  
its in-state campaign around the  
following core messages.**

**Dairy is Good for You and for Wisconsin**

- Dairy foods provide a unique nutrient profile that helps people of all ages achieve greater health and wellness. **(Good for me)**
  - ~ Real dairy has immunity boosting nutrients like Vitamin A, Vitamin D, zinc and protein.
  - ~ Get after it with dairy. As a natural source of protein, dairy provides the pick me up you need to go all out.
- U.S. dairy farmers are committed to reducing their carbon footprint even further as part of the dairy industry's initiative to become carbon neutral or better by 2050. **(Good for planet)**
  - ~ Producing a gallon of milk has 19% less greenhouse gas emissions than it did in 2007. That's equivalent to the amount of carbon dioxide removed from the atmosphere by half a million acres of U.S. Forest every year.
- Wisconsin dairy farmers have dedicated their lives to feeding communities across the state, country and globe. **(Good for community)**
  - ~ 95% of Wisconsin dairy farms are family owned.

**COMMUNICATION OFFICER  
JACKSON COUNTY SHERIFF'S DEPARTMENT  
BLACK RIVER FALLS**

Jackson County is accepting applications to fill a Full-Time and Part-Time Communication Officer position. If you are a person who wants to know that the work you do is important, dispatching will give you great satisfaction. There are few careers you can follow that put you directly in touch with people in need of help and enable you to provide it for them.

But great satisfaction does not usually come easily. The people who seek your help need it at all hours of the day and night. For dispatchers, this means shift work. It will mean staying on for an extra shift if the dispatch center is short-staffed. Sometimes you may want the overtime, other times, although it may be inconvenient for you, it will be a requirement that you stay anyway.

2024 Wage Range: \$22.59 - \$25.82 per hour and newly hired dispatchers will likely be assigned to 2nd or 3rd shift. Dispatchers are on a schedule rotation which may require them to work on holidays.

Learning the skills and receiving training is, of course, essential. However, you must also be able to think clearly under stress, not “burn out” easily and must be able to do several things at once without losing track.

If you think you have these qualities we’re looking for and willing to make this commitment to be held to these standards, please visit our Employment Opportunities page at [www.co.jackson.wi.us](http://www.co.jackson.wi.us) or scan QR code to apply. Applicants must be at least 18 years of age and have obtained a high school diploma or equivalent. The position will remain open until filled.

Mittens is one gorgeous kitty! Mittens is a 4-year old long-haired gray and white kitty who weighs 10#. She has a beautifully soft fluffy coat that is mostly gray with white on her chin, chest and her four feet, thus the name Mittens! She came to CCHS with her kitty brother Piper when there were severe cat allergies in their family. Not only is Mittens a beautiful cat, she has a lovely personality to go along with her good looks. Add in fluffy ear tufts and extra long whiskers, and it's as good as it gets. Mittens would love to be adopted with her friend Piper if possible. Please apply to adopt Mittens (and/or Piper!) today. You can submit your adoption application for Mittens on our website: [www.cchs-petshelter.org/applying-to-adopt](http://www.cchs-petshelter.org/applying-to-adopt).
