**BARN OWL**

**What is the greatest accomplishment  
of Western Medicine?**  
Is it the heart transplant? Medicine for infections?  
Control of Diabetes?

**No.** The most important thing that Medicine has ever done --that has saved the most lives-- is the science and practice of **PUBLIC HEALTH.**  
In Medical School, we thought of Public Health as pretty boring -- made up of scientific studies, lab tests and geeky doctors. This would not make an exciting medical program on TV.  
But what would we do without them?

**--Without Public Health--**

- Soldiers would still die of infections after small injuries.**
  - Malaria and Yellow Fever would spread anywhere  
mosquitos live in the U.S.**
  - Smallpox, Measles and Whooping cough would  
spread in every town and city**
  - We would get ill from drinking water and from  
food in restaurants**
  - COVID-19 would have killed not a million,  
but TENS of millions in the U.S. alone**
- People would die on the streets from Tuberculosis.**
  - Workers would die of asbestos, black lung and  
factory accidents**
  - Children would get brain damage - or die - from  
lead poisoning.**
- Infants and mothers would die more often during or after  
birth, and a mother could expect to lose 2/3 of her children  
before they became adults.**

**Our government, for some reason, chose to tear down  
our Public Health system.**  
Dr. Steven Woolf warned that the government has made a mess of every U.S. agency in charge of health and medical care. These agencies lost 20,000 jobs. State and local health departments lost \$11 Billion. These are people who inspect restaurants and test our waste water.  
**35 – 40% of funds to study all major illnesses have been cut.**  
Robert F Kennedy Jr, the secretary of Health and Human Services has made dangerous changes in the schedule of routine vaccinations that have kept our children healthy for generations. This year, at least 1200 cases of measles, were reported -- even though the disease was eliminated 25 years ago. JFK Jr admits that he has no training in medicine -- but, while firing scientists, tells parents to "do your own research." Like a Google search?  
Public Health depends on slow, methodical research and observation done in public health offices and laboratories. It depends on the hard work, teaching and face-to-face interaction by Public Health nurses and staff that keep us safe and healthy.  
**This is too obvious for words.**

Remembering  
Doris Krpata

I can't believe its been a year, not a day goes  
by we don't shed a tear. When you left us, it  
broke our hearts. It will take more time to pick  
up the parts.

You chose to leave to be with Dad, you said  
God will take me don't be sad. We carry on with  
you in mind, fond memories of a mom so kind.

We love you and miss you so!

Barb & Steve, Denny, Luann,  
Randy & Tami and Families

Thank You

There are no words big enough to truly express  
how thankful we are for the incredible love and  
support we've received throughout Condor's journey.  
From the very beginning, our family has been surrounded  
by friends, family and a community that showed up for us  
in the most powerful ways.

To every single person who helped make his cancer  
benefit possible—whether you donated, sponsored,  
shared, attended, volunteered, or  
simply kept us in your prayers—thank you. You  
helped us honor a great man in the most beautiful way.  
and we will never forget it.

To all who came and comforted us as we said our final  
good-bye, shared your special memories, and sent  
the beautiful arrangements/cards, THANK YOU for  
reminding us we're not alone.

God Bless you all. The family of  
Randy "Condor" Blazek

AND GOD SAYS . . .

For this is what the high and lofty One says — he who  
lives forever, whose name is holy: (Isaiah 57:15 NIV)

It has become increasingly clear to me that in the world  
there are two basic worldviews that are in conflict with each  
other. Some time ago as I watched two pastors on TV who  
were being interviewed concerning the Wisconsin Marriage  
Amendment allowing marriage between a man and woman  
only. One said, "Vote Yes," because it will protect the family.  
The other said, "Vote No," because we need to show love  
to all people. In reality the conflict was not so much about  
marriage as it was about truth vs. relativism. Two basic world-  
views.

For there to be truth there must be some basis of establish-  
ing it objectively. There must be a higher authority than just  
how we see things or how we feel about things. In science,  
we begin with a postulate or an idea, and set out to prove  
it. That postulate is expressed in the form of a theory which  
science then sets out to prove by experimentation. Once it is  
proven to be true it becomes law because it will always work  
unless there is a higher law that overcomes it or overrides it,  
like the law of aerodynamics overcomes the law of gravity,  
enabling us to fly an airplane.

Now our question becomes, "Is there an absolute law, or  
truth, or authority in the world, which overrides all other laws  
and if there is, can we find it and know it and live by it?" The  
answer to that is a resounding yes as clearly declared above  
by Isaiah. The idea of holy is to be separate, one of a kind,  
unique. Isaiah declares this to be God Almighty, the Creator,  
sustainer, and ruler, for all eternity. He is the final authority.

Therefore, to resolve our dilemma on marriage, stated  
above, we must consider God's law first and use it as our final  
authority. His word informs us that he made us male and  
female, and as such, are to be joined in marriage. The most  
loving thing we can do then, is to warn people that to violate  
this law is to bring destruction on themselves for doing so.  
We may "feel" like doing it our way, but, in the long run, God's  
way is the only way that ends well, regardless the issue.

### Pet of the Week

## "HAMM"

Hamm is the CCHS Pet of the Week!

Hamm came to CCHS with his 12 siblings from a local farm. They were all wonderful and happy puppies, just 10 weeks old. Just one little problem, they had ringworm. While not threatening to their lives, it does mean they can't be adopted til healed. They were in quarantine for 6 weeks while being treated, and have just been cleared by our Vet.

Hamm is now 4 months old and is such a handsome boy! He is a Shepherd mix with a short-haired coat that is yellow and white. He is quite the ham, with a smile on his face and a sunny personality. All of the pups in this litter have tremendous ears, too. With any rescue, training and socialization are incredibly important to the success of the pup. If you'd looking to add a new friend to your world, please consider Hamm (or one of his siblings) and apply to adopt! You can submit your adoption application right on our website: [www.cchs-petshelter.org/applying-to-adopt](http://www.cchs-petshelter.org/applying-to-adopt). We have lots and lots of wonderful pets available for adoption now, so please check them all out online and then stop in to visit!

Freeday Friday is back!! On Friday, August 1st, Freeday Friday will be held at our original CC Resale Store. It's located at 600 Hewett St, in downtown Neillsville, on the corner opposite the Post Office. This is our "inconvenience store". We have lousy parking, terrible hours, not much is organized and we don't care if you buy anything or not. And yet, people love it. You know why?.....cuz it's all FREE! That's right, bring your bags, boxes, cars, trucks or buggies and fill 'em up. It's all free! We call it Freeday Friday and it's August 1st from 9:30 to 11:30 a.m. See you then!!
